

Nirvana Bites

Nirvana Bites is an irreverent look at alternative living, set in the housing co-ops and S&M clubs of South London. When Jen goes for a job at the BBC, she gets more than she bargains for when she recognizes her potential boss as Stapled Stana man with a serious bondage problem. It seems that she is not the only one who knows his secret identity and soon Stan enlists her as a private investigator and protector. As she sets out on a quest to find and confront his blackmailers, Stan is concealed within Jen's homely community of anti-capitalist social misfits and New Age hippies. As the threats grow more serious and Jen's friends start to suffer, it becomes clear that an inconspicuous aquatic shop, Koi Korner, is hiding some dark secrets. Can Jen expose the perpetrators? Will life ever be the same again?
