

The Childrens Home

A disquieting (The New York Times) and mesmerizing tale from an award-winning British author about a mysterious group of children who appear to a disfigured recluse and his country doctor a tale that [stirs] the imagination in the manner of Roald Dahl or C.S. Lewis (Winnepeg Free Press). In a sprawling estate lives Morgan Fletcher, the disfigured heir to a fortune of mysterious origins. Morgan spends his days in quiet study, avoiding his reflection in mirrors and the lake at the end of his garden. One day, two children, Moira and David, appear. Morgan takes them in, giving them free reign. Then more children begin to show up. Dr. Crane, the town physician and Morgans lone tether to the outside world, is as taken with the children as Morgan, and begins to spend more time in Morgans library. But the children behave strangely. They show a prescient understanding of Morgans past, and their bizarre discoveries in the mansion attics grow increasingly disturbing. Every day the children seem to disappear into the hidden rooms of the estate, and perhaps, into the hidden corners of Morgans mind. A one-of-a-kind literary horror story (Kirkus Reviews, starred review), The Childrens Home is an absorbing and dream-like narrative that recalls both the pastoral gothic of Shirley Jackson and the dystopic vision of John Wyndham (Columbus Dispatch). Written with charm and restraint, (The Missourian), Lamberts American debut weaves elements of psychological suspense and neo-gothic horror to reveal the grotesque as well as the glimmers of goodness buried deep within the soul. This genre-bending horror story is sure to haunt you in all the best ways (Bustle).
